

## Robert Bratton's Recommendations

### ***Randy Weston, Senior Developer American Eagle Outfitters, Inc.***

Robert has consistently demonstrated a vast knowledge of software and hardware technologies. He was able to come into our complex retail environment and quickly understand key business processes which allowed him to deliver intelligent solutions. Robert is a focused developer who is able to turn around project deliverables in a timely manner, while showing great attention to detail and pride in helping us meet our objectives.

(I worked with Randy for about a year as a consultant at American Eagle Outfitters \*2)

### ***Keith Varga, Systems Administrator Electronics for Imaging, Inc.***

Rob Bratton greatly helped to influence and improve the Internet Hosting department at EFI. Showing extreme motivation and skill, Rob quickly learned and improved the many procedures in the department. His knowledge and ownership of EFI applications provided the team with many insights and enhancements still used today. Also a teacher, he strengthened those around him through constant tutelage and good advice. His complete collection of very configurable EFI programs are still in use today, and are a constant value to the team. His most widely used program is a highly configurable database-driven web application used to track dynamic department data. Literally built from the ground up completely by Rob, this comprehensive tracker application continues to keep our department organized everyday.

(I worked with Keith for about three years. \*2)

### ***Al Flynn, Jr. Systems Administrator Electronics for Imaging, Inc.***

Rob is very professional and very dedicated to his profession. He is very approachable and always willing to assist those around him. It was always a pleasure to work with him. He openly shares his knowledge and experience with

others, which greatly increases the value of the team around him. No task was too little or too large for him to assist with. I would strongly recommend anyone that is considering him for employment to quickly do so. You can't go wrong with a guy like him on your team!

(I worked with Al for about three years. \*2)

***James Schultz, System Integrator  
PNC Bank***

I have had the pleasure of working with and knowing Rob for the past three years. While working with Rob I found him to be consistently pleasant, tackling all assignments with dedication and a commitment to excellence.

Besides being a joy to work with, Rob is a take-charge person who is able to present creative ideas and communicate the benefits. He has successfully designed and implemented several applications that have resulted in major cost savings for the organization.

Though Rob was an asset to our application development team, he was also extraordinarily helpful in other areas. In addition to designing and implementing applications, Rob assumed a leadership role in meetings, inspiring and motivating other employees.

I highly recommend Rob for employment. He is a definite team player and would make a great asset to any organization.

(I worked with Jim for over a year on the Centralized Reconcilements project at PNC \*1)

***Tom Sweeney, CEO  
Compucom, Inc.***

Rob first worked for Compucom as a Tech Support person for Imaging Systems. In addition to being a great Tech Rob's ability to communicate with both technical people and the user community helped us immeasurably. When Rob moved on with his career we continued to utilize his skills as a sub-contractor. He has never let us down in any situation.

(I worked for Compucom, Inc. for several years and still consult with them \*1)

***Leah Fani, Land Administrator  
Columbia Gas - NiSource Companies***

I have worked with Rob for several years from having him develop a database to store and track our open survey and land jobs to continually maintaining and updating the database to serve our growing needs. This database tracks all of the survey and land work for Indiana, Ohio, Kentucky, Pennsylvania, Virginia, Maryland, Massachusetts and New Hampshire.

He has always provided us with excellent service and responded to our needs with a sense of urgency in respect to our various needs.

I personally respect Rob's professionalism and his very approachable attitude and continue to enjoy working with him. I would highly recommend him as he is a valuable asset.

(I've been working with Leah as an independent consultant through Compucom, Inc. \*1)

***Ruth Miller Leskovich, Office Manager (formerly)  
Commodity Metals Management Company***

Rob was the most dependable worker and the best in his IT field that I experienced during my 14-year tenure with my company, CMMC. He was quick to respond to problems and excellent at teaching me and our staff to handle some of the more mundane IT matters ourselves. I knew that if needed, Rob would show up any time day or night (and we did need that occasionally). It was a true pleasure working with him and a great comfort for me as I was responsible for the entire company's IT needs.

(Ruth Miller Leskovich was my contact for consulting work for CMMC while I was self-employed \*1)

**Mike Gabrin, CIO/CTO**  
**Precision Therapeutics, Inc.**

Robert (Rob) Bratton has been a member of my technology team at Precision Therapeutics, Inc. for over three years. While I wish him only the best and fully understand that he must advance his career, I'm truly sorry to see him go. It has been a pleasure having him on my team.

Rob is a technology professional of the highest caliber, who meticulously creates and maintains technical solutions to real business problems. I've received many compliments from our end users who rely on Rob's systems.

Rob is an innovative self-starter, who rarely needs supervision. He approaches the work in a professional manner and typically meets or exceeds expectations. During his time at PTI, Rob has performed a wide ranging set of tasks demonstrating technical mastery of Network Engineering, Systems Administration, Software Development and Database Design and Administration. Rob clearly has a strong command of the technical concepts required to successfully fill all of these roles. He has demonstrated the ability to both define technology solutions as well as implement them in a timely and user-centered manner. He is well respected and liked by his peers and his end user customers. Rob has an exceedingly well developed user "bed side manner" as well. He is helpful and courteous with the users, and never makes them feel technically challenged. He regularly solves problems efficiently and effectively.

Rob will be a terrific asset in any technical department, and I highly recommend him. If you'd like to discuss his attributes in more detail, please don't hesitate to contact me.

(I worked at Precision Therapeutics, Inc. for several years, reporting to Mike Gabrin \*3)
